

Cogan Rack Guard

Rigid, resilient and maintenance-free, Cogan rack guard panels bolt directly onto pallet uprights, keeping your employees safe from any falling debris—should a fork-lift or other in-plant vehicle accidentally bump the pallet. The wire mesh construction forms a sturdy wall of protection for your employees, while your inventory remains secure and visible. Simple nut-and-bolt assembly makes installation quick and easy, minimizing costs and maximizing savings. It's why Cogan rack guards consistently outperform in every crucial area—including price.
